

# Cancer Cachexia & Omega-3 Fatty Acids Conference

*Optimizing multimodal treatment by defining the best nutritional and metabolic supportive care for patients with cancer*

## PRAGUE 26/5/16

---

NH Hotel

Mozartova 261/1, Prague

---

Dear Colleagues,

The Cancer Cachexia & Omega-3 Fatty Acids Conference will be held in Prague, Czech, May 26th, 2016. The focus of this Conference will be defining the best nutritional and metabolic supportive care for the management of patients with cancer. The efficacy of anti-cancer treatments is usually dose dependent. Side-effects due to toxicity to non-tumor tissues may limit dose. Thus, to optimize treatment, a multimodal treatment approach that includes the best nutritional supportive care as adjuvant therapy may help to ameliorate some of the secondary complications associated with cancer and its treatment.

We cordially invite you to join us for this premier event and look forward to your active participation,

---

Sincerely

Adriatic Club of Clinical Nutrition & Abbott Nutrition

**HIPPOCRATES**  
460–370 B.C.

"meat disappears and changes the water ..., the abdomen is filled with water, drain hands and feet, ... shoulder, collarbone, chest and upper legs are melting ..." The disease is fatal.
