

Preliminary programme

Programme, Friday 17 January 2014

- 08.30 - 08.40 **Welcome**
- 08.40 - 09.00 **Opening address**
- 09.00 - 11.00 **Prostate cancer I: Screening, diagnosis, staging and treatment**
- 09.00 - 09.20 **Prostate cancer screening: Why screening programme should not be adopted in > 65**
- 09.20 - 09.30 **Discussion**
- 09.30 - 09.45 **Diagnostic Strategies for early detection of PCa**
- 09.45 - 11.00 **Debate: Prostate biopsy and pathological evaluation: How to achieve maximum information**
09.45 - 10.00 Is it time to trash TRUS biopsy?
10.00 - 10.15 The indication for prostate biopsy in 2014: MRI directed biopsy: Is it becoming a standard?
10.15 - 10.30 How reliable is the pathological examination to make clinical decisions:
10.30 - 10.45 The role of tissue biomarkers to predict prognosis
- 10.45 - 11.00 **Discussion**
- 11.00 - 11.15 **Coffee break**
- 11.15 - 12.15 **Active treatment vs Active surveillance for Low risk PCa in young men**
- 11.15 - 11.30 **Robotic RP (video)**
- 11.30 - 11.45 **Focal therapy**
- 11.45 - 12.00 **Active surveillance**
- 12.00 - 12.15 **Discussion**
- 12.15 - 13.45 **Renal Cancer: Localised**
- 12.15 - 12.30 **Can we predict histology of renal tumors by imaging and macroscopic appearance ? Clinical consequences**
- 12.30 - 12.45 **New pathological classification: Grading**
- 12.45 - 13.45 **Debate: The best treatment for renal masses > 3 cm in the elderly (>75) patients**
12.45 - 13.00 Active surveillance: Has it a role?
13.00 - 13.15 Ablation therapy: Pro
13.15 - 13.30 Surgery: Still the best?
- 13.30 - 13.45 **Discussion**

11th Meeting of the EAU Section of Oncological Urology (ESOU)

17-19 January 2014, Prague, Czech Republic

<http://esou.uroweb.org>

esou

EAU

Association
of Urology

- | | |
|---|---|
| 13.45 - 14.45 | Lunch |
| 14.45 - 15.15 | Penile cancer |
| 14.45 - 15.00 | Pre-Malignant lesions: Incidence and Classifications |
| 15.00 - 15.15 | Mini-Invasive therapies for clinically localised penile tumours |
| 15.15 - 16.15 | Urothelial cancer I: Non muscle invasive |
| 15.15 - 15.35 | Circulating tumor cells in bladder cancer: A new marker? |
| 15.35 - 16.15 | Debate: Standard TUR and cytology vs TUR and new technologies
Standard TUR:
New technologies: |
| 16.15 - 16.45 | Coffee break |
| 16.45 - 18.15 | Urothelial cancer II: Non muscle invasive |
| 16.45 - 17.30
16.45 - 17.00
17.00 - 17.15 | Debate: Treatment of intermediate risk patients: Chemotherapy vs BCG
Chemo is appropriate:
BCG is the best: |
| 17.15 - 17.30 | Discussion |
| 17.30 - 17.45 | BCG in the elderly: Still a good choice? |
| 17.45 - 18.00 | Discussion |
| 18.00 - 18.15 | Best NMIBC papers in 2012 associate member |

11th Meeting of the EAU Section of Oncological Urology (ESOU)

17-19 January 2014, Prague, Czech Republic

Association
of Urology

Programme, Saturday 18 January 2014

08.30 - 10.30 Prostate cancer II: Localised

08.30 - 08.50 Treatment algorithm in high risk PCa

08.50 - 10.30 **Debate: High risk clinically localised Pca**

08.50 - 09.10 Radical prostatectomy: How I do it step by step (Video)

09.10 - 09.30 Radiotherapy is better: New technologies (Cyberknife, Protons..)

09.30 - 09.50 Robotic Radical prostatectomy and Extended Lymphadenectomy for c T3 PCa: SURGICAL TECHNIQUE AND outcomes (Video and lecture)

09.50 - 10.10 Laparoscopic RP for cT3: Same results but less expensive?

10.10 - 10.30 Discussion

10.30 - 11.30 Testicular cancer

10.30 - 10.45 Standard treatment and new messages in the management in Stage I disease

10.45 - 11.00 New messages in intermediate and poor risk disease

11.00 - 11.15 Surgical approaches in complex cases

11.15 - 11.30 Discussion

11.30 - 11.45 Coffee break

11.45 - 13.30 Urothelial cancer III: Muscle invasive and advanced disease

11.45 - 12.00 Radical cystectomy and orthotopic neobladder in women: Long term results and QoL

12.00 - 12.30 **Debate: Prostate sparing Radical cystectomy**

12.30 - 12.45 Discussion

12.45 - 13.40 **Debate: Therapeutic Strategies in elderly (>75) and frail patients with muscle-invasive bladder cancer**

12.45 - 12.55 Geriatric evaluation (definition of frail and clinical impact)

12.55 - 13.05 Surgery

13.05 - 13.15 Radio- chemotherapy

13.15 - 13.25 Local control and best supportive care

13.25 - 13.45 Discussion

14.00 - 16.00 **STEPS programme (closed programme: participation by invitation only)**

11th Meeting of the EAU Section of Oncological Urology (ESOU)

of Urology

Programme, Sunday 19 January 2014

- 09.00 – 10.00 Disaster Management and prevention in uro-oncological surgery (open, robotic and lap)
- 09.00 – 09.20 Intra-OP
- 09.20 – 09.40 Late
- 09-40- 10.00 Case Discussion
- 10.00 – 11.15 **Cytoreductive Surgery in metastatic disease**
- 10.00- 10.15 Rationale
- 10.15-10.30 Kidney
- 10.30-10.45 Bladder
- 10.45-11.00 Prostate
- 11.00-11.15 Discussion
- 11.15 – 11.45 Coffee break
- 11.45- 12.35 **Muscle invasive Bladder Cancer**
- 11.45 – 12.05 Standardizing complications reporting after radical cystectomy
- 12.05- 12.25 Functional outcomes of orthotopic reservoirs following radical cystectomy. Searching the truth
- 12.25 -12.35 Discussion
- 12.35 – 13.40 **Prostate Cancer III: Advanced and Metastatic**
- 12.35- 12.50 Intermittent vs continuous ADT: Still controversial?
- 12.50- 13.05 Local treatment of oligometastatic disease: Lymphadenectomy
- 13.05- 13.20 Bone metastases
- 13.20 – 13.35 When should we start treatment in CRPC patients?
- 13.35 – 13.45 Discussion
- 13.45 Meeting close
