

ESGO 2015 Scientific Programme
Saturday, October 24, 2015

09:30 - 10:30

Hall A

Best Oral Presentation

10:00 - 16:00

Hall F

Patients' Seminar

11:00 - 12:30

Hall A

Parallel:

Clinical Trials since ESGO 2013

Coordinators:

Ignace Vergote (Belgium)

Isabelle Ray-Coquard (France)

- Clinical trials in endometrial cancer: list of ongoing and future clinical trials in EU and unanswered questions
- Clinical trials for cervix cancer: list of ongoing and future clinical trials in EU and unanswered questions
- Clinical trial for ovarian carcinoma: list of ongoing and future clinical trials in EU and unanswered questions
- Clinical trial for rare tumors: list of ongoing and future clinical trials in EU and unanswered questions

11:00 - 12:30

Hall B

Parallel:

Rare Peritoneal Tumours

Coordinators:

Olivier Glehen (France)

Sara O'Dwyer (United Kingdom)

- Organisation of health care providers for the treatment of rare peritoneal malignancies: The French way (RENAPE)
- Current management of appendiceal neoplasia and Pseudomyxomas Peritonei
- Peritoneal mesothelioma: who benefits from radical surgery?
- The role of hyperthermic intraperitoneal chemotherapy in the palliative treatment of peritoneal malignancies

11:00 - 12:30

Hall C

Task Force:

INTEGRATE (ENITEC, ENTRIGO, EUTROC)

11:00 - 12:30

Hall D

**National Society:
SFOG 1: Sentinel Node**

Coordinators:

Patrice Mathevet (France)

Fabrice Lecuru (France)

- New techniques for sentinel node identification: fluorophore, magnetic marker... Detection rate and false negative cases.
- Cervical cancer and SN technique: SN alone or in association with pelvic lymph-node dissection?
- Vulvar cancer and SN technique: What are the false negative cases, what are the valid indications for the SN technique?
- Endometrial cancer and SN technique: what are the indications and the principal technical aspects?

13:00 - 14:30

Hall B

Satellite Symposium 1

14:30 - 15:30

Hall A

**State of the Art:
Cervical Cancer**

Coordinators:

David Cibula (Czech Republic)

Christine HaieMeder (France)

- Update on fertility sparing treatment
- Rationale and evidence for tailored approach to early stage disease
- Advanced stage with emphasis on management of patients with positive paraaortic nodes

14:30 - 15:30

Hall B

**Tumour Board:
Vulva**

Coordinators:

Ate GJ van der Zee (The Netherlands)

Lukas Rob (Czech Republic)

- 2 early with the sentinel LN
- 2 advance cases

14:30 - 15:30

Hall C

Sister Society:

14:30 - 15:30

Hall D

**Oral Presentations 1
Endometrial Cancer**

16:00 - 17:00

Hall A

**State of the Art:
Ovarian Cancer**

Coordinators:

Nicoletta Colombo (Italy)

Eric Pujade-Lauraine (France)

Emile Darai (France)

- Surgical treatment of primary and recurrent ovarian cancer
- Systemic therapy: from chemotherapy to targeted therapy in front line and at recurrence
- How to manage BRCA mutated patients?

16:00 - 17:00

Hall B

**Parallel:
Perioperative Management**

Coordinators:

Stephanie Suria (France)

Sean Dowdy (USA)

- How anesthesia can improve postoperative recovery
- The role of nutrition in perioperative recovery
- Putting it all together: The impact of a comprehensive, standardised enhanced recovery programme

16:00 - 17:00

Hall C

**Tumour Board:
Fertility Sparing**

Coordinators:

Dimitrios Haidopoulos (Greece)

Michael Halaska (Czech Republic)

- A cervical cancer case
- A cervical cancer case
- A case of endometrial cancer

16:00 - 17:00

Hall D

Sister Society:

16:00 - 17:00

Hall F

**Task Force:
ENPIGO - Screening of Cervical Cancer**

17:00 - 18:30

Hall A

Satellite Symposium 2

Sunday, October 25, 2015

07:30 - 08:30

Hall A

Video:

Ovarian Cancer

Coordinators:

Christian Marth (Austria)

Eric Leblanc (France)

- Peritoneal stripping in ovarian cancer
- Lymph node dissection
- Laparoscopic evaluation
- The Hudson procedure

07:30 - 08:30

Hall B

Parallel:

Uterine Transplantation: A (potential) New Improvement in Fertility Sparing Surgery in Gynaecologic Oncology

Coordinators:

Yves Aubard (France)

Alexandros Rodolakis (Greece)

- First results of uterine transportation in human
- Risk of cancer in immunosuppressed patients for transplantation
- Potential interest and place of uterine transplantation in gynaecologic oncology

07:30 - 08:30

Hall C

Sunrise:

Early Drug Development

Coordinators:

John A. Green (UK)

Alexandra Leary (UK)

- Targeting tumour suppressor genes - the example of p53
- Targeting DNA repair
- Targeting the PI3K/AKT pathway

08:30 - 09:30

Hall A

Parallel:

New Targeted Treatments in Gynaecological Cancers

Coordinators:

Cristiana Sessa (Switzerland)

Antonio Casado (Spain)

- Introduction
- RAS RAF MEK ERK pathway (instead of DNA interacting agents: PARP inhibitors and beyond)
- New antiangiogenic and vascular disrupting agents and their combinations (instead of mTOR/Pi3/Akt pathway)
- Targeting HSP-90 in gynecological cancer
- Concluding remarks

08:30 - 09:30

Hall B

Parallel:

Follow up on Gynaecological Malignancies - Best of Torino ESGO2014 SoA Conference

Coordinators:

Paolo Zola (Italy)

- Introduction Hot Topics in follow up 5mins
- Follow up on cervical cancer
- Follow up on ovarian cancer
- Follow up on endometrial cancer
- Future directions

08:30 - 09:30

Hall C

Best Poster Session 1

08:30 - 09:30

Hall D

**National Society:
SFOG 2**

09:30 - 10:30

Hall A

Presidential Address

11:00 - 12:30

Hall A

Late Breaking News

11:00 - 12:30

Hall B

Parallel:

Surgical management of Recurrent Gynaecological Tumours

Coordinators:

David Cibula (Czech Republic)

Jalid Sehouli (Germany)

- Palliative and non-palliative surgical interventions in relapsed ovarian cancer
- Surgical management of extrapelvic recurrences
- Update on pelvic exenteration in 2015
- Reconstructive procedures after pelvic exenteration

11:00 - 12:30

Hall C

**Sister Society:
IPOS-ESGO Workshop**

Coordinators:

Joachim Weis (Germany)

Annette Hasenburg (Germany)

- Cooperation of ESGO and IPOS
- Cancer as a disease that involves all family members
- Therapy for sexual challenges after cancer
- Actual S3 guideline for psychooncology
- Survivorship: How can we support our patients

11:00 - 12:30

Hall D

**Oral Presentation 2
Ovarian Cancer**

13:00 - 14:30

Hall B

Satellite Symposium 3

14:30 - 16:00

Hall A

**State of the Art:
Endometrial cancer: New ESGO-ESMO-ESTRO Guidelines**

Coordinators:

Nicoletta Colombo (Italy)

Carien Creutzberg (The Netherlands)

Cristiana Sessa (Switzerland)

- Introduction to the multidisciplinary consensus process
- Prevention and screening
- Surgery
- Adjuvant treatment
- Advanced and recurrent disease
- Panel discussion

14:30 - 16:00

Hall B

**Parallel:
Oncogenetic**

Coordinators:

Elisabeth Avall Lundquist (Sweden)

Charlie Gourley (United Kingdom)

- Molecular testing in ovarian cancer; how far should we go?
- Implementation of BRCA sequencing in an oncology clinic
- Psychosocial aspects of genetic testing

14:30 - 16:00

Hall C

National Society

14:30 - 16:00

Hall D

Oral Presentations 3
Cervical Cancer

16:30 - 17:30

Hall B

Parallel:

Management of intermediate risk of Endometrial Cancer

Coordinators:

Carien Creutzberg (The Netherlands)

Mansoor Raza Mirza (Denmark)

- Surgical staging and potential role of sentinel node biopsy
- Role of Radiation Therapy in intermediate risk group
- Controversies in the management of intermediate risk endometrial cancer
- Clinical Applications of molecular and genetic predictive factors in Endometrial Cancer

16:30 - 17:30

Hall C

National Society

16:30 - 17:30

Hall D

Sister Society

16:30 - 17:30

Hall F

ESGO Business Meeting (members only)

17:30 - 18:30

Hall D

Glass with the Expert

Monday, October 26, 2015

07:30 - 08:30

Hall B

Video session:

Cervical Cancer & Vulvar Cancer

Coordinators:

Murat Gultekin (Turkey)

Rainer Kimmig (Germany)

- Radical Hystrectomy, Vaginectomy and Parametrectomy
- Single-port laparoscopy in cervical cancer and extraperitoneal para-aortic lymphadenectomy,
- ICG-Fluorescence guided compartmental surgery in cervical cancer
- Robotic Surgery- what has it changed in cervical cancer surgery?

07:30 - 08:30

Hall C

Sunrise:

Palliative Care

Coordinators:

Johan Menten (Belgium)

Rene Verheijen (The Netherlands)

- Palliative treatments: Different surgical possibilities for gynecological cancer as palliative treatments
- Palliative care
- Dying process ~ terminal care: finally how can we recognize that a patient starts dying and what do we have to do?

07:30 - 08:30

Hall D

Sunrise:

Mucinous Ovarian Cancer

Coordinators:

Philippe Morice (France)

Jaime Prat (Spain)

- Pathologic classifications and relevant patterns in mucinous borderline and invasive ovarian tumors
- Specific requirement due to the subtype in the surgical management of mucinous ovarian tumors
- Chemotherapy and targeted therapies in mucinous ovarian cancers: current management and future strategies

07:30 - 08:30

Hall E

Sunrise:

Uterine Sarcoma

Coordinators:

Frederic Amant (Belgium)

Patricia Pautier (France)

- Endometrial stromal sarcoma
 - Pathology
 - Surgery Systemic treatment, including adjuvant
 - Patricia Pautier
- Uterine leiomyosarcoma
 - Pathology
 - Surgery
 - Systemic treatment, including adjuvant

08:30 - 09:30

Hall A

Parallel:

Challenges in the Management of Cervical Cancer

Coordinators:

Denis Querleu (France)

Gillian Thomas (Canada)

- Is radical hysterectomy necessary in low volume disease?
- Stage IB2 : radical hysterectomy or chemoradiation ?
- Stage IIB-III : How Can we Improve outcomes for advanced Cervical Cancer?

08:30 - 09:30

Hall B

State of the Art:

Breast Cancer

Coordinators:

Emmanuel Barranger (France)

Robert Mansel (United Kingdom)

- Impact of the ACOSOG Z0011 on axillary surgery in a European Teams
- Nipple skin sparing mastectomy: state of the art
- New techniques for sentinel node identification

08:30 - 09:30

Hall C

Task Force:

INCIP - Cancer and Infertility in Pregnancy

08:30 - 09:30

Hall D

Oral Presentations 4

Breast/Vulva Cancer

08:30 - 09:30

Hall E

Sister Society

09:30 - 10:30

Hall A

Keynote Lecture

11:00 - 12:30

Hall A

Parallel:

Personalised Medicine (P4)

Coordinators:

Martin Widschwendter (United Kingdom)

Helga B. Salvesen (Norway)

- Predictive: Novel strategies for women's cancer risk prediction
- Preventive: An update on current strategies for women's cancer prevention
- Personalized: Personalised treatment in women's cancer
- Participatory: How to communicate cancer risk and individualised screening, prevention and treatment

11:00 - 12:30

Hall B

Parallel:

Surgical Trials (EBM)

Coordinators:

Philip Harter (Germany)

Marie Plante (Canada)

- Cervical and Vulvar Cancer
- Endometrial Cancer
- Primary Ovarian Cancer
- Recurrent Ovarian Cancer and HIPEC

11:00 - 12:30

Hall C

ENYGO 1:

Young Investigators Session

Coordinators:

Rene Laky (Austria)

Elisabeth Chereau (France)

11:00 - 12:30

Hall D

Sister Society:

Joint ESP – ESGO: The Clinician Meets the Pathologist on Ovarian Tumours

Coordinators:

Maria-Rosaria Raspollini (Spain)

Vesna Kesic (Serbia)

- Adenocarcinoma of the cervix: Key histopathological criteria which tailor an optimal treatment
- What is new in pathology and genetics of endometrial cancer
- New Developments in Ovarian Epithelial and Sex Cord-Stromal Tumours
- Discussion

11:00 - 12:30

Hall E

Oral Presentations 5

Miscellaneous

13:00 - 14:30

Hall B

Satellite Symposium 4

13:00 - 14:30

Hall C

Satellite Symposium 5

14:30 - 15:30

Hall A

Debate:

Robot vs Laparoscopic

Coordinators:

Rainer Kimmig (Germany)

Eric Leblanc (France)

14:30 - 15:30

Hall

Task Force:

Fertility Preservation

Coordinators:

Dominik Denschlag (Germany)

Frederic Amant (Belgium)

- Introduction: Fertility and Pregnancy challenged by Cancer – Accepting the challenge by ESGO Task Forces collaboration
Breast Cancer: Ovarian damage by systemic treatment and the role of protection by GnRH Analogues
- Endometrial Cancer: Clinical recommendation for conservative treatment in low risk disease
- Ovarian Cancer: Ovarian management in young patients with BRCA-mutations

14:30 - 15:30

Hall C

Best Poster Session 2

14:30 - 15:30

Hall D

Task Force:

ENGOT

Coordinators:

Christian Marth (Austria)

Eric Pujade (France)

New developments in ovarian cancer treatment: Report from ENGOT

- What are the most promising drugs on the horizon for treating ovarian cancer patients
- What are ongoing ovarian cancer trials?
- What are the most promising predicting tests in ovarian cancer?

14:30 - 15:30

Hall E

National Society

16:00 - 17:00

Hall A

Parallel:

Selection of Ovarian Cancer Patients for Debulking Surgery

Coordinators:

Angelo Maggioni (Italy)

Denis Querleu (France)

- Any borders in Cytoreductive surgery? Which are?
- How to select the patients in an appropriated and dedicated surgical center?
- The future role of biological markers in the surgical treatment planning

16:00 - 17:00

Hall B

Tumour Board:

Trophoblastic Disease

Coordinators:

Frederic Goffin (Belgium)

Michael Seckl (United Kingdom)

- Molar evacuation with persisting disease needing?
- High risk GTN post term requiring careful imaging
- False positive hCG case resulting in unnecessary chemotherapy, hysterectomy, thoracotomy and a lead on to how to avoid false positive and negative hCG results or a case of placental site trophoblastic tumour and how its management differs from other GTN

16:00 - 17:00

Hall C

ENYGO Session 2:

Introduction in Immunohistochemistry in Gynaecologic

Coordinators:

Jaime Prat (Spain)

Michael Halaska (Czech Republic)

14:30 - 16:00

Hall D

Parallel:

Immunotherapy

Coordinators:

Christian Marth (Austria)

George Coukos (Switzerland)

- General principles of tumor immunology
- Therapeutic vaccines for cervical cancer
- Immunotherapy of ovarian cancer

14:30 - 16:00

Hall E

National Society:

SFOG 3

17:00 - 18:00

Hall B

National Society

17:00 - 18:00

Hall C

Task Force:

SURGEON

Coordinators:

David Cibula (Czech Republic)

Denis Querleu (France)

- Education and training in surgery (Luis Chiva)
- Multidisciplinary collaboration
- Quality control assessment
- Standardisation in surgery

17:00 - 18:00

Hall D

National Society

17:00 - 18:00

Hall E

Task Force:

ENGAGE

Coordinators:

John Green (United Kingdom)

Isabel Mortara (Switzerland)

Tuesday, October 27, 2015

07:30 - 08:30

Hall B

**Task Force:
EOTTD**

07:30 - 08:30

Hall C

**Sunrise:
Colposcopy workshop**

Coordinators:

Vesna Kesic (Serbia)

Jiri Slama (Czech Republic)

- Current role of colposcopy in diagnostics of cervical lesions
- Faults in colposcopy
- Novel advancements in colposcopy

08:30 - 09:30

Hall A

**Parallel:
New Imaging Technology**

Coordinators:

Andrea Rockall (United Kingdom)

Nandita deSouza (United Kingdom)

- Imaging the primary site (cervix, endometrium, ovaries, peritoneum)
- Imaging lymph nodes and recurrent/ relapsed disease
- New nuclear medicine approaches-beyond FDG

08:30 - 09:30

Hall B

National Society

08:30 - 09:30

Hall C

Best Poster

08:30 - 12:30

Hall D

**Fellow's Workshop:
Tips and tricks in pelvic laparoscopic surgery & ESGO Quiz**

09:30 - 10:30

Hall A

Parallel:

Management of Treatment Complications

Coordinators:

Elena Ulrikh (Russia)

Philippe Morice (France)

- QOL after radical surgery in cervical/endometrial cancer.
- Radio-induced chronic enteritis in uterine cancer: how to prevent, how to manage?
- Place of interventional radiology in the management of immediate and late postoperative complications.

09:30 - 10:30

Hall B

National Society

09:30 - 10:30

Hall C

Parallel:

Image guided radiotherapy

Coordinators:

Remi Nout (The Netherlands)

Richard Pötter (Austria)

- Advances in pelvic external beam image guided adaptive radiochemotherapy
- Image guided adaptive brachytherapy for cervical cancer combined with external beam radiochemotherapy
- Image guided adaptive brachytherapy for vaginal cancer, vaginal recurrences and endometrial cancer

11:00 - 12:30

Hall A

Parallel:

Rare Gynaecological Malignancies

Coordinators:

Nicholas Reed (United Kingdom)

Isabelle Ray-Coquard (France)

- Introduction and welcome
- Pathology of sex cord and stromal tumours
- Treatment of sex cord and stromal tumours
- Pathology of neuroendocrine tumours of genital tract
- Treatment of NE cancers of genital tract
- Discussion and conclusions: NSR and IRC

11:00 - 12:30

Hall B

Parallel:

Primary Prevention in Gynaecological Oncology

Coordinators:

Andrew Nordin (United Kingdom)

Catherine Hill (United Kingdom)

- General introduction
- Ovarian ca risk reduction
- Endometrial ca risk reduction
- Prevention of vulval cancer
