

Wednesday, May 13, 2015

14:00 – 16:00	ISFA Editorial Board Meeting
16:00 – 17:00	ISFA Board Meeting
17:30-18:15	Dr. Paul Strengers –Global Challenges in blood donation Grand Cancun 4 , 5A
18:15 – 18:45	Recognition to a Life in Transfusion Medicine Grand Cancun 4 , 5A
18:45–19:00	Opening Ceremony
19:00 – 19:30	Dr. Siami Ghodrat – Celebration of 100 years of Plasmapheresis Grand Cancun 4 , 5A
19:30 – 21:30	Get Together Reception Gran Cancún 1,2,3 y Hotel Fiesta Americana Coral Beach

Thursday, May 14, 2015

08:30–09:15	<p>Plenary Session I Apheresis technologies: procedures and equipment for selective target removal Dr. Uwe Wallstab Chairman: Gran Cancún 4, 5 A</p>			
09:15–10:00	<p>Plenary Session II Utilidad de los biomarcadores para predecir rechazo en trasplante renal y estrategias de desensibilización EBC Julio César Martínez Álvarez Chairman: Dra. Malva H. Mejia Arregui Gran Cancún 4, 5 A</p>			
10:00 – 10:30	Break			
10:30 – 11:00	<p>Plenary Session II Microquimerismo fetal y materno Dr. Ángel Guerra Márquez Chairman: Dra. Fany Rosenfeld Mann Gran Cancún 4, 5 A</p>			
11:00 – 13:00	<p>Simposio Comité de Medicina Transfusional Coordina: Dra. Amalia G. Bravo Lindoro Gran Cancún A</p>	<p>Simposio Calidad Coordina: Dr. Sergio Augusto García Méndez Cozumel 4</p>	<p>Breakaway Session INFLAMMATORY MARKERS AND APHERESIS Chairman: Dr. Patrick Moriarty Dr. Beate R. Jaeger Gran Cancun 5</p>	<p>Breakaway Session TECHNOLOGY Chairman: Dr. Paul Malchesky Dr. Wolfgang Ramlow Cozumel 5</p>
11:00 – 11:30	Dra Julieta Rojo Medina –Estructura y función de los comités de medicina transfusional	Dra. Silvina Kuperman – Diez puntos esenciales en calidad	Current Status And Future Perspectives Of Lp(A) Apheresis Dr. Beate Jaeger	Membrane Technology For Plasma Separation And Therapeutic Plasma Filtration Dr. Paul Malchesky
11:30 – 12:00	Dra. Graciela León de González – Comité de medicina transfusional: programación y seguimiento	Dra. Ana Luisa D’Artote González – Calidad de los hemocomponentes, todo comienza con el donador	Galectin-3 Removal And Apheresis Isaac Eliaz	Basic Principles Of Adsorption In Life Sciences Dr. Joerg Vienken

12:00 – 12:30	Dr. Paul Strengers – Use of Clinical Indicators in Transfusion	Dr. Héctor Baptista González – Indicadores de calidad en medicina transfusional	Dynamics Of Coronary Atherosclerosis In Post CABG Patients Receiving Lipoprotein Apheresis Adzhiev Renad	Regulatory Process For Medical Devices In Europe: Current Status And Upcoming Revised Regulation Dr. Uwe Wallstab
12:30 – 13:00				
13:00 – 14:00	Lunch and Poster Session			
14:00 – 15:30	Simposio Inmunohematología molecular Coordina: Dr. Héctor Alfredo Baptista González	Foro interactivo: Casos clínicos en inmunohematología Coordina: Dra. Malva Hilda Mejía Arregui	Breakaway Session NEPHROLOGY Chairman: Dr. Wladimir M. Szpirt/ Dr. Kaplan Gran Cancun 5	Breakaway Session APHERESIS In CRITICAL CARE: Chairman: Cozumel 5
14:00 – 14:30	Dr. Higinio Estrada Juárez – Métodos moleculares en identificación eritrocitaria	Dra. Fanny Rosenfeld Mann – Instituto Nacional de Perinatología	Plasma Exchange In ANCA+ Vasculitis With Renal Involvement Dr. Wladimir Szpirt	"Extracorporeal Therapies In Advanced Liver Disease: A Review Of Current And Future Technologies." Dr. Jody Olsen
14:30 – 15:00	Dra. Lilian Maria de Castilho – Beneficios de la genotipificación eritrocitaria en pacientes multitransfundidos, experiencia brasileña	QFB Javier Bautista Juárez – The American British Cowdray Hospital(Hospital ABC)	Plasma Exchange In Vasculitis Dr. Alina Casian	"What To Be Learned From Two Decades Of MARS Treatment In Liver Failure Patients?" Dr. Steffen Mitzner
15:00 – 15:30	Dra. Rocio Trueba Gómez – Genotipificación de antígenos plaquetarios	QFB Elizabeth Guzmán Vázquez – Instituto Nacional de Cancerología	"Apheresis for Renal Disease: Current Status Dr. Andre Kaplan	
15:30 – 16:00	Break			

16:00 – 17:30	Hemovigilancia Coordina: Dra. Ana Luisa D'Artote González	Donación Sanguínea Coordina: QFB Clotilde Estrada Carsolio	Breakaway Session Abstracts Chairman: Gran Cancun 5	Breakaway Session TRANSPLANTATION Chairman: Cozumel 5
16:00 – 16:15	Dra. María Dolores Pérez Rosales – Componentes esenciales del sistema de hemovigilancia	Dra. Martha Montemayor Curiel – Experiencia en Yucatán	Apheresis For Pediatric DCM Takeshi Moriguchi	The Role Apheresis Treatment Before And After Kidney Transplantation Dr. Georg Boehmig
16:15 – 16:30	Dra. Ma. Isabel Bermúdez Forero – Hemovigilancia: Experiencia colombiana	Dra. Silvina Kuperman–Prevención de la anemia en donadores regulares de sangre: evaluación de los depósitos de hierro	To Assess The Incremental Cost Effectiveness Of Treating Guillain Barre Syndrome Patient With Intravenous Immunoglobulin As Compared To Therapeutic Plasma Exchange Ratti Ram Sharma	
16:30 – 16:45	Dra. Ana María Mejía Domínguez – Hemovigilancia: una experiencia mexicana	Dr. Antonio Salas Ramírez – Donación Sanguínea: una tarea multidisciplinaria	A Novel Vascular Access Route For Granulocyte Monocyte Apheresis – Puncture Of Accompanying Veins Of Brachial Artery Under Ultrasonographic Guidance Norio Hanafusa	Improved survival after orthotopic heart Transplantation not orthopedic heart TransplantationOf HELP Apheresis Beate R. Jaeger
16:45 – 17:00			Plasmapheresis of pegylated liposomal doxorubicin: a new approach to reduce toxicity during chemotherapy (CARL TRIAL) Gerhard Putz	
17:00 – 17:15			The use of vortex port for red cells exchange in sickle cell disease patient: pilot study Lydia Alexander	Ramakrishna Reddy – Intra- Operative Therapeutic Plasma Exchange During Heart Transplant Surgery

17:15 – 17:30				The immature fraction of platelets in donors peripheral blood platelet apheresis Valery Pogorelor
---------------	--	--	--	--

Friday, May 15, 2015

08:30–09:15	Plenary Session IV Dr. Steffen Mitzner – "ICE – a novel extracorporeal system for treatment of septic patients utilizing immobilized granulocytes Gran Cancún 4, 5 A			
09:15–10:00	The role of Apheresis in the treatment of Ebola Virus Disease V Anne Winkler Gran Cancún 4, 5 A			
10:00 – 10:30	Break			
10:30 – 11:15	Plenary Session V Dra. Graciela León de González – Síndrome Hiperhemolítico. Etiopatogenia y manejo terapéutico Coordina: Dra. Adolfin Bergés García Gran Cancún 4, 5 A			
11:30 – 13:00	Simposio Presentación Oral de Trabajos Libres Coordinan: QFB Javier Bautista Juárez Dra. Rocío Trueba Gómez Salón: Gran Cancún 4	Simposio Medicina Transfusional Coordina: Dr. Sergio Arturo Sánchez Guerrero Salón: Cozumel 4	Breakaway Session IMMUNE APHERESIS Chairman: Dr. Jeffrey Winters Gran Cancun 5	Breakaway Session Dyslipidemias Chairman: Dr. Wolfgang Ramlow Cozumel 5
11:30 – 12:00		Dra. María Isabel Bermúdez Forero – Evaluación externa de inmunoserología	Apheresis in the Treatment of Idiopathic Dilated Cardiomyopathy Dr. Jeffrey Winters	"KISS – A Cardiometabolic Risk Assessment Tool To Identify Dyslipidemic High-Risk Cardiovascular Patients In Daily Routine" Dr. Wolfgang Ramlow
12:00 – 12:30		Dra. Silvina Kuperman – Manejo apropiado de la transfusión sanguínea en el recién nacido	Agonistic Autoantibodies To Adrenoceptors, Pathphysiological Role And Therapy Dr. Rudolf Kunze	Cross-Over Study Comparing The Liposorber Whole Blood And Plasma Lipid Apheresis System For Optimizing The Individual Therapy Of Patients With Cardiovascular Disease And Severe Dyslipidemia Dr. Grit Waitz

12:30 – 13:00		Dr. Jesús Villarrubia – Transfusión de plaquetas, importancia de la cuenta exacta	Double Column Immunoabsorption – An Effective Therapeutic Option In Immune Mediated Diseases Dr. Bernd Hohenstein	"Severe Hypertriglyceridemia – An Indication For Apheresis Treatment Dr. Hans-Ulrich Kloer
13:00 – 14:00	Lunch and Poster Session			
14:00 – 15:30	Enfermedades Transmisibles por Transfusión Coordina: Dra. Araceli Malagón Martínez Salón: Gran Cancún 4	Foro Interactivo: Uso Racional de la Sangre Coordina: Dra. Gloria Estrada García Salón: Cozumel 5	Breakaway Session IMMUNE APHERESIS Chairman: Gran Cancun 5	Breakaway Session Dyslipidemia Continued Chairman: Cozumel 5
14:00 – 14:20	Dra. Julieta Rojo Medina – Actualización de la Seroprevalencia de hepatitis B y C en donadores de sangre mexicanos	Dra. Amalia G. Bravo Lindoro – Casos clínicos en pacientes pediátricos	Immunoabsorption In Neurological Diseases – An Effective Treatment Tool Dr. Heinz Wiendl	"Lysosomal Acid Lipase Deficiency – An Unrecognized Cause Of Dyslipidemia Dr. James Underberg
14:20 – 14:50	Dr. Paul Strengers- Pathogen inactivation	Dr. Sergio Arturo Sánchez Guerrero – Casos clínicos en pacientes oncológicos	A Possible Role For Immunoabsorption Treatment In Alzheimer's Diseases Dr. Rudolf Kunze	"Rheological Improvement In Lipid Apheresis – More Than A Pleiotropic Effect?" Dr. Patrick Moriarty
14:50 – 15:10	Dr. Jorge Alberto Rey – Virus emergentes en un mundo globalizado	Dr. Hector Rodriguez Moyado – Casos clínicos en reacciones adversas a la transfusión	Immunopure Cytapheresis: In Vitro Evaluations And First Clinical Results Dr. Grit Waitz	Treatment Of PAD With Apheresis Dr. Hisashi Makino
15:10 – 15:30			Photopheresis – A Current Status And Perspectives In Immunologically Driven Conditions Dr. Volker Witt	
15:30 – 16:00	Break			

16:00 – 18:00	Equipo Multidisciplinario en Medicina Transfusional Coordina: Dr. Héctor Rodríguez Moyado Salón: Cozumel 4	Simposio Presentación Oral de Trabajos Libres Coordinan: QFB Javier Bautista Juárez Dr. Sergio Augusto García Méndez Salón: Gran Cancún 5	Breakaway Session PCSK9 Chairman: Dr. Patrick Moriarty Gran Cancun 5	Breakaway Session Sepsis: Chairman: Dr. Endo Cozumel 5
16:00 – 16:30	LEO Lucía Zamudio Godínez – Manejo enfermero de reacciones adversas a la transfusión		Overview Of PCSK9	Membrane Vs. Centrifuge Based Therapeutic Plasma Exchange – A Randomized Prospective Crossover Study Dr. Jan Kielstein
16:30 – 17:00	Dra. Adolfina Berges García –Usos del FVIIr fuera de protocolo		Effect Of Lipoprotein Apheresis On PCSK9 Levels Dr. Bernd Hohenstein	The Efficacy Of Direct Hemoperfusion With Polymyxin B Immobilized Fiber Column In Patients With Severe Sepsis And Septic Shock Dr Yoshihiro Endo
17:00 – 17:30	M en C Guillermo Escamilla Guerrero – Transfusión en pacientes con PAD positiva		Overview Of Escape Trial Dr. Patrick Moriarty	Uncovering Complement-Mediated Thrombotic Microangiopathy In The Setting Of Sepsis, Colitis And Progressive Renal Failure Jan Hofman
17:30 – 18:00	Asamblea Nacional Cozumel 5			Analysis of relationship between central venous pressure and hemodynamic effect of polymyxin-B direct hemoperfusion for septic shock patients Hiroyuki Yamada

Saturday, May 16, 2015

08:30–09:15	<p>Plenary Session VII Antisense therapy Directed to Lp(a) for Lp(a)-Eligible Apheresis Patients Dr. Sam Tsimikas Chairman: Gran Cancún 4, 5 A</p>			
09:15–10:00	<p>Plenary Session VIII Removal of C-reactive protein through adsorption techniques for Therapy of Myocardial Infarct and Stroke Ahmed Sheriff Chairman: Gran Cancún 4, 5 A</p>			
10:00 – 10:30	Break			
10:30 – 11:15	<p>Plenary Session IX Use of blood components based on the recommendations of the Holland blood transfusion conference Dr. Paul Strengers Chairman: Dr. Angel Guerra Márquez Gran Cancún 4, 5 A</p>			
11:30 – 13:00	<p>Simposio Tópicos Selectos en Medicina Transfusional Coordina.: Dra. Karina Peñaflo Juárez Salón: Cozumel 4</p>	<p>Simposio Seguridad Sanguínea Coordina: Dra. Gloria Estrada García Salón: Gran Cancún A</p>	<p>Breakaway Session Regulatory Issues / Guidelines / Registers Chairman: Dr. Christian Peter Gran Cancun 5</p>	<p>Breakaway Session Other Indications Chairman: Cozumel 5</p>
11:30 – 12:00	<p>Dr. Jorge Alberto Rey –Impacto de hepatitis E en transfusión sanguínea</p>	<p>Dra. Ma. Dolores Pérez Rosales – OPS Plan regional de seguridad sanguínea</p>	<p>"Clinical Registers Are Useful Tools To Improve Database For Apheresis Treatment" Dr. Christian Peter</p>	<p>"Unusual Indications For Therapeutic Leukapheresis In Hematological Malignancies Dr. Robert Weinstein</p>

12:00 – 12:30	Dra. Lilian María de Castilho – Uso de técnicas moleculares en tipificación sanguínea y sus fronteras	M. Eleanor Saunder – Farmacoeconomía de las pruebas de NAT	"The German Lipid Apheresis Guidelines – A Good Basis For International Harmonization Dr. Wolfgang Ramlow	"Intermittent Heterochronic Plasma Exchange As A Modality For Delaying Cellular Senescence Dr. Dobri Kiprova
12:30 – 13:00	Dra. Adolfin Berges García – Adiminstración en la Transfusión sanguínea	Dr. Jesús Villarrubia –Guías internacionales para la irradiación de componentes sanguíneos y su adaptación y aplicación en España	"An International Dyslipidemic Register – Ready To Go" Dr. Christian Peter	"Challenges For Apheresis Professionals In The Age Of Emerging Cellular Therapies" Regina Rohe
13:00 – 14:00	Conference Closing			
14:15 - 15:00	ISFA General Assembly
